# CUT PROFILES

Every installation is unique and Troax cut profiles quickly helps you get the best solution for the project. Just cut the panel to desired height/width and simply attach the profile. The cut profile is designed to easily modify all our different mesh panels during installation without losing the systems strength.

The profile is available on stock in grey and can be supplied in any colour of your choice.
FACTS

| ART. NO	COMPONENTS
35700400	Kit cuttingcaps ST20/UR
35800801	Cut prof. UR/ST20 L=200
