

SCHMERSAL AZM201

The AZM201 is a monitored guard locking system with an easy and intuitive operation. With self-monitoring series-wiring of 31 sensors and 3 LEDs to show operating conditions, it's suitable for environments with high safety requirements. Equipped with a one-hand escape release exit that functions even when it is de-energized. With a special Troax bracket, the AZM201 can be easily fitted to both hinged- and sliding doors. The lock complies with Performance Level e (Guard Locked) in accordance with EN ISO 13849-1 or SIL3 in accordance with EN 62061. The AZM201 can be ordered via Troax and pre-assembled on your single hinged door, or we can supply the bracket to fit your choice of AZM-version.
