Privacy solutions

The privacy systems are modular and effective solutions to create privacy on a new or installed Betafence fence system. The privacy systems are compatible with different roll & panel types.

Bekafor® Collfort
Bekafor® & Nylofor® Nevada Colorado

BENEFITS

Decorative
Decorative & stylish privacy solutions in different materials & colours are available.

Compatibility
Betafence's privacy products offer privacy solutions for both welded & woven fences on roll (Pantanet, Fortinet, Plasitor) and different welded panel types.

Easy installation
All privacy systems can be easily installed on an existing or newly installed fence. For installation, a very limited number of tools is required.

Guarantee
The privacy solutions are guaranteed for a period of 10 years (for the guarantee conditions: see the product labels).

Applications

The privacy solutions can be used in all kinds of applications (both residential and professional), where privacy & security are required.

Bekafor Collfort

Wooden privacy slats in treated nordic pine, compatible with Bekafor Classic panels.

Bekafor Nevada

Privacy slats in PVC, standard available in 2 colours: dark green and imitation woodlook (light coloured).
Other colours are available on request.
Compatible with Bekafor Classic panels. (2,0 meter wide)

Nylofor Nevada

Privacy slats in PVC, standard available in green. Other colours are available on request. Compatible with 2,5 meter wide panels, type Nylofor 3D, Nylofor 3D Pro & Nylofor Medium.

Colorado

Privacy strip on rolls of 100 m, in HDPE, standard available in green & anthracite. Other colours available on special request. Compatible with flat panels & rolls with mesh sizes of 50mm or multiples of 50 mm (both in height or width) : Nylofor F, Nylofor 2D & 2DS, Pantanet Family & Protect, Fortinet Medium & Super and Plasitor.

Collfort installation

The horizontal & vertical slats can be easily placed in the panel. Fixation is done at each crossing by means of stainless steel or heavy galvanised staples or screws.

Bekafor & Nylofor Nevada installation

The horizontal & vertical slats can be easily glided in the panel. The vertical slats can be fixed to the panels bottom horizontal wire, by means of clips (included in the packing) and without tools. The specific shape of the horizontal beam can be installed in 2 directions, which enables installation with the different panel types.

Colorado installation

The flexible strip can be easily woven through the meshes of the fence. If the desired length is reached, the strip can be cut & fixed strip to the fence by means of a tie strap fastener.
